## About This Game

Your pawns are at the bottom of the board.

In your turns you move one of your pawn diagonally to one of a nearest square.

You can destroy enemy's pawn by jumping diagonally over it.

Note: If you can destroy enemy's pawn you MUST do it. That's the rule.

If any of your pawns reach opposite end of the board it change itself into queen pawn.

From now on it can move diagonally by any number of squares and also destroy enemy's pawn that way.

You win a game when there's no other figures except yours.

Good luck!
